

GURUJI KRISHNANANDA (1939)

LIGHT

Light, not the physical Light but the subtlest Light, is the Source of all Creation. It is the Source of all positive energies. It is the Source of Love, Peace, Truth, Wisdom and all Life. This Light is GOD.

CHANNELLING

Channelling is allowing the Light to descend into us by intending and then spreading It around the world. Our body transforms the frequency to the grosser level.

The vibrations from the Light reach all beings and nature. They carry the energies of Healing, Love, Peace and all Positivity. They help Transformation. We will be better human beings. The world will be a better world.

TECHNIQUE

Imagine an ocean of Light above you. Imagine the Light descending and filling up your body. Then, experience the Love, Light and Peace of the Light for a minute and then, imagine It spreading out gradually to your school, locality, country and world.

Practise this for a minimum period of seven minutes.

LIGHT CHANNELS WORLD MOVEMENT

A MESSAGE

Guruji Krishnananda

The Light is working. There are awakenings. There are changes, though they are not openly perceptible. The conscience of the world is being stirred. And the Revolution by Light is happening.

It does not mean that the acts of cruelty and corruption will reduce dramatically. They do not. But they surface and cannot be pushed under the carpet any more. Everything surfaces. Surfacing is part one of the Revolution. Then, waves of enragement against the acts of cruelty and corruption build up unknowingly, automatically. It is the next stage. Waves of this energy will act at deeper levels and then there will be an action.

One may think that this is very long process. Some may not believe this at all. But, we have to remember that we are in very different times of intense Transition. And many Intelligences and Energies are aligning to bring great changes faster. We, the common people, have to, meanwhile, channel Light and wait.

HAPPENINGS

Jayant Deshpande

A Volunteer, elderly but very young in spirit, begins her day very early in the morning covering dozens of schools to pass on the Light received from the Light Masters. Working with undiminished zeal even when turned down an opportunity, by some, to introduce Light Channelling, she covers more than a hundred Kilometre in her car on some days. The work keeps her busy until late in the evening. The Love she carries for the Light Masters has given a higher meaning to her life as she works silently without trying to claim credit for any work she has done. She is joined by other equally dedicated Volunteers in this work, who even have to travel by city buses sometimes. But they never complain and make best use of the opportunity offered to them by the Masters.

With efforts from such Volunteers, Light Channelling is introduced to more than 25000 new children in more than 70 schools in the month of June as they covered more than 300 Light Channelling sessions participated by more than a lakh children.

LIGHT WORKS

Manoj Chopra

Every day morning hundreds of schools start their day with Light channelling as a part of morning prayers. Many school functions and teacher meetings begin with Light channelling. Recently one institution began their academic year by channelling of Light. All these indicate that the 'Revolution by Light' is already happening. Thousands are accepting Light and taking up newer practices. These newer ways indicate beginning of New Age where older ways are replaced by higher ways slowly.

The Light channelled by lakhs of children is impacting the world by supporting all positive changes and creating conducive atmosphere for transformation. Let us join this Revolution by channelling Light.

THEORETICALLY SPEAKING

Padmaja Balaji

'Is Light Channelling a proven theory? If so, who has authorised it?'

As a volunteer, intelligent questions of similar type need to be addressed sometimes. It is required of us to be quick-witted and alert at such times with complete understanding of what a theory is and how different it is from a law.

The very word 'theory' brings to my mind, our dearest scientist, Albert Einstein. Thanks to the faulty atomic clock that wrongly measured the neutrino experiment, his General Theory of Relativity still remains invincible by space-time gamers. Hopefully you would've got an idea what a theory is, by now.

Ironically, for many, a theory is an idea or ideal that is difficult to prove, for it is argued that theories of life cannot be lived completely. This notion too is perfectly logical considering the present condition of our planet. But we fail to understand one very important reason behind this condition - we do not seek to change towards greater good of humanity.

I still remember how my heart got pierced and pained when I first read Oscar Wilde's short story 'The Nightingale and the Rose'. The love of the nightingale swept my being for days and nights. Without an iota of doubt, I truly believed that all nightingales are such selfless creatures and developed greater respect for roses. I delighted in seeing flowers on the plants than plucking them for my personal use.

Then, more incidences, stories and experiences piled upon my consciousness only to emphasise that Love is beyond man-made theories and laws, for Love is our original nature.

A small girl who is reminded of her original nature i.e. Love after a Light Channelling session, gifted me her precious chocolate which she had saved in her school bag for her personal consumption at a later period. It was not her birthday either. I am very much touched by her big heart and sweet gift so much so that I ended up writing this article as a tribute to her. She, being only 6 years old, definitely has no idea about theories or laws or dynamics of the world. Instead I saw a beautiful smile on her face just like a fresh flower.

To the person who asked me the question, I replied in terms best understood – 'It is a proven theory for me. I need none to authorise it.' ■

EXPERIENCES

(Compiled by Vaishali Joshi)

I had accompanied the students on an excursion to Kanyakumari on 22nd November, 2011. We reached there by 11.30 AM. To our disappointment the ferry to visit the Vivekananda Rock shrine was closed due to rough sea. We gathered in a park and had lunch. In the afternoon some primary class children eagerly channelled Light, requesting Light to help them visit the shrine.

Around 4 PM we were ready to leave but the students requested the guide and master to try again. Though it was a long walk, they agreed and soon they sent word that the ferry was open. We rushed, only to find a big crowd and the gates closed, but the guide came out with the tickets with special permission from the presiding officer of that office. We were on the last ferry. We meditated in the hall and watched the sunset in a clear sky. We left as the rock was lit up with brilliant lighting to leave a lasting impression of the wonderful energy we experienced. Thanks to the grace of Light.

- Smt. Uma Krishnamurthy,
Headmistress, Gnana Bodhini School,
Sheshadripuram, Bangalore

On 14th June 2012, the Anniversary of RLCC, Madurai at around 3 PM the entire college campus witnessed a blow of whirlwind shaking trees with branches moving swiftly around and bending down to touch the ground. I was bit annoyed that it may disturb the programme. I prayed to Guruji and Rishis.

Later, by the time I arranged seating of visitors and others in the program hall I could observe the silencing of whirlwind and it slowly changed into a breeze. The programme started at 5.30 PM as scheduled. I consciously prayed to Guruji and Rishis for successful conduct of the programme. Surprisingly, a cool breeze entered the hall and swayed through us, and suddenly there was heavy drizzling outside which lasted up to 6 PM. There was no possibility of rain up to 5.30 PM as there were no clouds and the sky was very clear. Once the programme was over again the sky was clear. I felt that the rain had been Divine Blessings from Rishis and our Guruji.

- C. Swaminathan, Volunteer

When I channelled Light for the first time I did not understand anything. But I continued to practise every day in the evening at 6.30 PM. While playing, I realised that my stamina had improved. I have not fallen sick. My memory has increased.

- Rohit Londhe, Student, Balwikas
Corporation School, Lokmanya
Nagar, Pune

Students did not assemble at the prayer time. Prayers got delayed and the Vice Principal was angry with me. I got tensed and started shouting at the students, made them assemble and after the prayers when you conducted Light Channelling, I too participated. I felt very soothing, calm and peaceful. You came like a God. Thanks a lot. It is a very good technique. I will definitely ask the children to practise this.

- Ms. Sanju Kumari, Teacher, KV – II,
104 Area, Visakhapatnam

The Light channelling sessions in different schools have created a lot of goodwill and joy. In my daily routine of teaching the S.S.C. students we start each day with this practice. The students have started enjoying the process and find greater sense of confidence and rejuvenated energy. Some of them have noteworthy experiences.

A young girl who has to get married was suddenly identified with kidney failure. Around 80 students sincerely channelled Light every day and it is still on. We came to know that 25% of her kidney has started functioning now.

Recently a student's father met with a nasty accident. We started channelling Light. He is out of danger and has shown quick improvement.

A 4-year old girl was gruesomely hit by an auto rickshaw. All chances were bleak; nevertheless we channelled Light with full faith. She is now out of danger.

I thank you for giving the world such a precious gift unconditionally.
